

Sa 27.4. Dare to Differ: English Legal System and English Law 13:30

English law is not based on legal codes and the human rights of British citizens are not protected by a written constitution. Yet, English law enjoys a high reputation and immense popularity internationally, it is often the law chosen by contract parties to cross-border commercial transactions, and courts across the Commonwealth look to the English courts for guidance. Dr. Franziska Arnold-Dwyer, a solicitor of the Senior Courts of England and Wales and Teaching Fellow at the University of London, will give a brief introduction to the English Legal System and English Law. She is also available to answer questions about applying to English universities and studying law in England.
